Hot Times in Town.

Several nights this week, a number of boys, we suppose, whether white or colored we know not, made things lively with bombs, fire crackers, torpedoes, baby wakers and other instruments of noise and torture. There seemed to be detachments of them in different parts of the town. They fired by battalions, brigades and by regiments. They woke up the sleeping and kept the sleepy awake. They proved themselves an unholy terror to the nervous and weak. This is, we believe, a violation of the town ordinance forbidding shooting fire crackers and such things on the street. If such conduct is not a violation of the town laws it ought to be.

Dr. King's New Discovery for consumption, coughs and colds is not an experiment. It has been tried for a quarter of a century and to day stands at the head. It never disappoints. Handy With His Knife.

Last Monday a difficulty occurred on Main Street, in front of Harris son and Gillespie Bro's Store, between Jno. Henry Smith (better known as "John Hen") and Price Donnelly, in which the latter was stabbed though not seriously. The difficulty arose from some trivial cause. John Hen is in Jail. And this leads us to remark, that there is a crowd of boys constantly loafing near this corner who are continually slapping each other, or striking with sticks or boards, and even wrestling, so as to make, it not only unpleasant to pass that corner, but such conduct nearly always results in trouble. In some such way as this the trouble occurred between Price and John Hen. We believe an order was passed by the Council some time ago forbidding such loafing, but if so the order has never been enforced.

Robbed the Grave.

A startling incident of which Mr. John Oliver, Philadelphia, was the subject is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only fifty cents per bottle at Jackson's drug store.

A New Device.

Mr. J. M. James, of Wythe co. has been in town several days introducing a new device called The Self Condensing Coffee Brewer and selling territory for the same. Those who have used the coffee brewer out spoken in its praise. From a casual examination of the brewer we feel sure it is a good thing. Mr. James has sold the entire state except five counties, and is considering a proposition for these.
